Dear Sr,

I am pleased to offer you our support to your proposal called “Díde”, which will be submitted to Horizon 2020 Programme SME Instrument Phase 2.

As the director general of High Commissioner for the 2030 Agenda, Spanish Government .

We are highly interested in the Díde project outcome and we would like to be informed of its final results, **in special the integration of the big data analytics in the platform**. With this, we want to improve our treating methods by analysing patterns and tendencies in the disorders and problems of our clients.

I am therefore looking forward to being considered as a potential final partner for the implementation of this ambitious project.

Yours faithfully

FEDERICO BUYOLO GARCÍA
